1994 CAUSE/EFFECT INDEX

Feature Articles

Armann, Neil, L. Dean Conrad, Darrel Huish, and Bruce Millard. "Developing a Distributed Computing Architecture at Arizona State University." Summer, pp. 12-21.

Baker, Warren J., and Arthur S. Gloster II. "Moving Toward the Virtual University: A Vision of Technology in Higher Education." Summer, pp. 4-11.

Barry, William F. "Moving to Client/Server Application Development: Caveat Emptor for Management." Winter, pp. 11-18.

Beltrametti, Monica, and Will English. "Integrating Computing Resources: A Shared Distributed Architecture for Academics and Administrators." Summer, pp. 45-52.

Bernbom, Gerald, Mark Bruhn, and Dennis Cromwell. "Security in a Client/Server Environment." Winter, pp. 19-26.

Branin, Joseph J., George D'Elia, and Douglas Lund. "Integrating Information Services in an Academic Setting: The Organizational and Technical Challenge." Fall, pp. 26-31, 36-37.

Cousins, Elaine. "Developing Effective User Training Programs at the University of Michigan." Summer, pp. 53-58.

Eaton, Robert B., and Rodney C. Schuler. "Revolution in the Information Systems Shop: Reengineering the IS Workplace." Spring, pp. 21-29.

Flowers, Kay, and Andrea Martin. "Enhancing User Services through Collaboration at Rice University." Fall, pp. 19-25.

Hess, Charlotte, and Gerald Bernbom. "INforum: A Library/IT Collaboration in Professional Development at Indiana University." Fall, pp. 13-18.

Kiesler, Sara. "Working Together Apart." Fall, pp. 8-12.

LeDuc, Albert L. "People Are What Really Matters." Spring, pp. 10-14.

Lowry, Anita. "The Information Arcade at the University of Iowa." Fall, pp. 38-44.

Mara, Mark. "Project Mandarin™: Implementing Distributed Computing at Cornell University." Winter, pp. 39-46, 51.

Mullig, Richard M., and Keith W. Frey. "From Server to Desktop: Capital and Institutional Planning for Client/Server Technology." Winter, pp. 27-31, 36-38.

Norwood, Bill R. "Evolution of Smart-card Technology Development at Florida State University." Spring, pp. 34-37.

Oberlin, John L. "Departmental Budgeting for Information Technology: A Lifecycle Approach." Summer, pp. 22-31.

Swan, Elsa, and Celeste Giunta. "Organizational Effectiveness and Changing Job Design in the Information Technology Community." Summer, pp. 36-44.

Wagner, Ellen D. "The Technology Aside: Building a Strategic Plan to Strengthen Academic Programs." Spring, pp. 15-20.

CNI Report

West, Richard P. "CNI: A Successful Merger of Content and Distribution." Fall, pp. 7+.

_____. "Copyright and the Economics of Networked Information." Spring, pp. 3-4.

_____. "Library Budgets: Re-orienting Where We Spend Our Money." Summer, p. 3.

_____. "Higher Education and the National Information Infrastructure." Winter, pp. 3-4.

Current Issues

"Current Issues in Higher Education Information Technology." A summary of issues identified at the 1993 CAUSE Current Issues Committee meeting. Spring, pp. 5-6.

Falduto, Ellen F., Kenneth C. Blythe, and Polley Ann McClure. "The Information Age, the People Factor, and the Enlightened IS Manager." Spring, pp. 7-9.

Gillespie, Robert G. "Questions and Answers on Internet Costs." Winter, p. 5+.

McCredie, Jack. "When Every Client is Also a Server." Winter, pp. 6-10.

Young, Arthur P."Information Technology and Libraries: A Virtual Convergence." Fall, pp. 5-6+.

Campus Computing Environment

Lehigh University. Summer, pp. 32-35.

Lansing Community College. Winter, pp. 32-35.

University of California, Berkeley. Fall, pp. 32-35.

University of Central Queensland (Australia). Spring, pp. 30-32.

Viewpoints

Breivik, Patricia Senn. "Investing Wisely in Information Technology: Asking the Right Questions." Fall, pp. 47-50.

Franks, John. "The Impact of Electronic Publication on Scholarly Journals." Spring, pp. 40-42+.

McLean, Neil. "The Management of Information Access in Higher Education." Spring, pp. 43-46.

Rogers, John W. "Calling a Truce in Computing's 'Culture Wars.'" Winter, p. 47.

Solomon, Martin B. "The Hidden Costs of Client/Server Computing." Spring, pp. 47-51.

_____. "The Need to Rethink Decentralized Computing in Higher Education." Winter, pp. 48-51.

Widner, Jack, and Andrew Lawlor. "Library/Computing Center Relations: A Comprehensive State University View." Fall, pp. 45-46+.

Good Ideas

Graves, William H. "The Textbook Approach to Winning A Student Technology Fee." Winter, pp. 52-54.

Longo, Bruce, and Barbara Robinson. "Centralized Technology Support: An IT Help Line/Help Desk." Spring, pp. 38-39.

McMillan, Marilyn, and Gregory Anderson. "The Prototyping Tank at MIT: 'Come On In, the Water's Fine'." Fall, pp. 51-54.

Russell, James S. "Finding Access to the Internet on a Low Budget." Winter, pp. 55-57.

Miscellaneous

Ryland, Jane N. "Information Resources: Technology, Services, and Information." Fall, pp. 3-4.
